

ALLIES

AI-based framework for supporting micro and small HSPs on the report and removal of online terrorist content

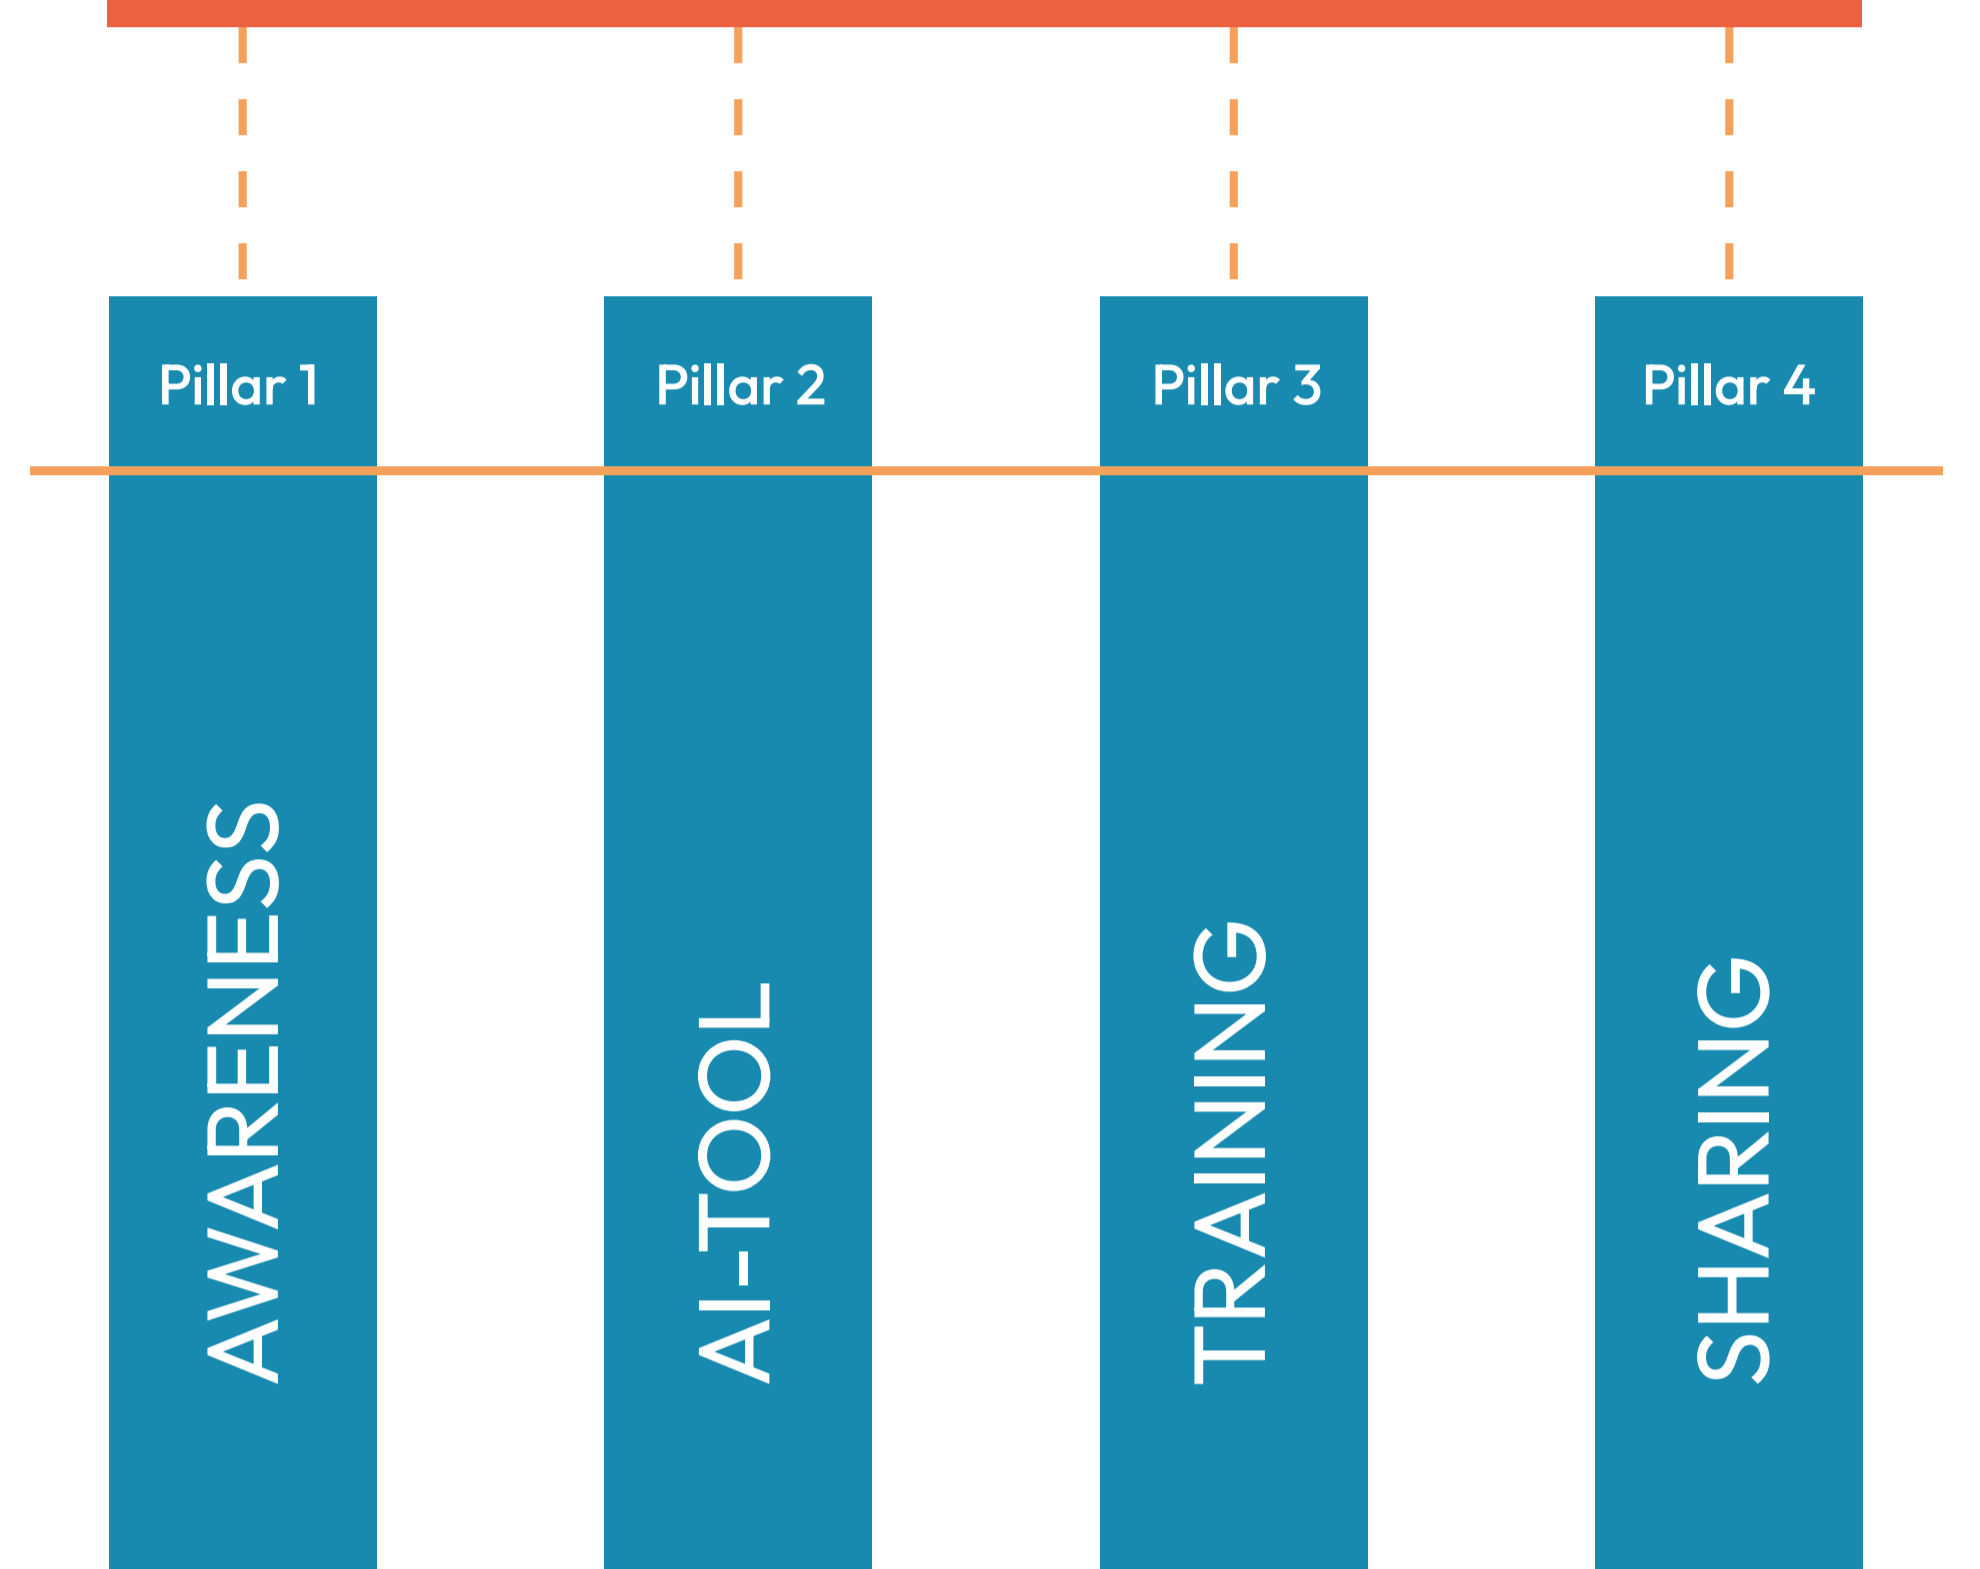

ABOUT ALLIES

One of the most dangerous misuses in the Internet concerning public security are the usage of social media and websites for dissemination of terrorist content.

On that matter the European Union adopted the “Terrorist Content Online” (TCO) Regulation which requires Hosting Service Providers (HSP) to remove any illegal terrorist content within one hour, after having received an official removal order.

Therefore, the aim of ALLIES is to support micro and small HSPs in complying with the requirements of this TCO Regulation through the creation of the proper learning, training, experience sharing mechanisms as well as technical (AI) tools.

SKILL DEVELOPMENT AND INNOVATION

PROJECT OBJECTIVES

AWARENESS

among micro and small HSPs for the TCO Regulation and its requirements

AI TOOL

developed to support HSPs by implementing the TCO Regulation

TRAINING

for HSPs concerning TCO Regulation content and the usage of the created AI tool

SAFE ONLINE ENVIRONMENT

for experience sharing and reporting among HSPs
